The Eleventh Annual Scientific Meeting on Hepatogastroenterology

Theodor Bilharz Research Institute
&
Beaujon Hospital - France

Saturday the 16th of March 2019
9:30 am
Ramses Hilton Hotel - Cairo

Under the Patronage of H.E
Minister of Higher Education & Scientific Research
Professor Khaled Abd El Ghaffar

Prof Wafaa Kandeel
President of Theodor Bilharz Research Institute

Coordinators
Theodor Bilharz- Beaujon Hospital Agreement

Prof Ahmed El Ray
Prof Philippe Ruszniewski
Distinguished Guest and Colleagues

It is my pleasure to welcome you at the Eleventh Annual Scientific Meeting on Hepatogastroenterology organized by Theodor Bilharz Research Institute in collaboration with Beaujon Hospital, France. We highly appreciate and cherish this excellent scientific cooperation with Beaujon Hospital and its role in helping scientific progress. Through the agreement between our institutions, we managed several scientific projects and training for young doctors in the prestigious departments of Beaujon Hospital.

We are sure that the program of our meeting will enrich the knowledge of hepatogastroenterologists regarding the care and management of patients. We are very lucky to have been able to bring together an eminent panel of international experts from France and Egypt who are dedicated to promoting all aspects of hepatogastroenterology.

It is my pleasure to welcome and thank our eminent guests from France and Egypt. Special thanks to Professor Philippe Ruszniewski, the French coordinator of the agreement, who has helped to maintain this fruitful cooperation from its beginning to the present time.

I would like to express my deep gratitude and thanks to Professor Patrick Marcellin, Professor Philippe Levy, Professor Olivier Soubrane, Professor Valerie Paradis for enriching the program by their lectures.

Our thanks are extended to our distinguished Egyptian speakers for offering us their precious expertise in this field.

I would like to thank Professor Ahmed El Ray the Egyptian coordinator of the agreement for his continuous effort to maintain the agreement and precious scientific meetings.

I invite you all to contribute to this meeting by sharing your professional experience, as only with your participation this meeting can reach its goal.

Professor Wafaa Kandeel
President of Theodor Bilharz Research Institute
## Scientific Program

### Opening Ceremony & Welcome speech  10:00 AM

*Professor Ahmed EL RAY*
Moderator of the meeting . Egyptian coordinator of TBRI – Beaujon Agreement

*Professor Philippe RUSZNIEWSKI*
French coordinator of TBRI – Beaujon Agreement

*Dr Rym Abderrahmani*
Science and Technology Attachée ,French Embassy in Egypt ,French Institute

*Prof : Wafaa KANDEEL*
President of Theodor Bilharz Research Institute

### Session I  11:00 AM - 01:00 PM

**Chairpersons:** Prof Mazen NAGA, Prof Ayman YOUSSRY,
Prof Medhat ELSAHAR, Prof Sameh GHALI, Prof Khaled YOUNES,
Prof Moataz SYAM

*Prof Philippe LEVY*
Professor and Head of the Pancreatology - Gastroenterology Department, Faculty of Medicine , ParisDiderot University and Beaujon Hospital

*International recommendations in the management of acute pancreatitis*

*Dr Khaled RAGAB*
Lecturer of Hepatogastroenterology , Theodor Bilharz research institute

*Endoscopic management of pancreatic pseudocysts . A real life experience from TBRI*
Prof Philippe RUSZNIEWSKI
Dean of Faculty of Medicine - Paris Diderot University
Professor of Pancreatology & Gastroenterology Beaujon Hospital
**Non surgical treatment of malignant neuroendocrine pancreatic tumors**
Professor Maged EL GHANNAM
Professor of Hepatogastroenterology, Theodor Bilharz research institute
**Helicobacter Pylori. An Egyptian View**

**Session II 01:30 PM - 04:00 PM**

Chairpersons: Prof Hassan HAMDY, Prof Ahmed MORSI, Prof Eman MEDHAT, Prof Mohamed HASSANI, Prof Maha AKL, Prof Emad ESMAT

Professor Gamal ESMAT
Professor of Hepatology and Tropical Medicine Faculty of Medicine,
Cairo University
**Towards HCV elimination on Egypt by 2020**

Prof Patrick MARCELLIN
Professor of Hepatology. Head of the Viral Hepatitis Research Center,
Department of Hepatology and INSERM CRI, Beaujon Hospital, Paris-Diderot University
**Hepatology: today and the future**

Prof Valerie PARADIS
Professor and Head of the Pathology Department, Faculty of Medicine, Paris Diderot University and Beaujon Hospital
**HCC and metabolic syndrome**
**Prof Olivier SOUBRANE**  
Professor and head of the Hepato- Biliary- Pancreatic surgery and Hepatic Transplantation Dpt , Faculty of Medicine, Paris Diderot University and Beaujon Hospital  
*Laparoscopic Resection of HCC*

**Professor Mostafa EL SHAZLI**  
Chairman of General Surgical Department & director of liver transplantation program, Kasr El Eini, Faculty of Medicine Cairo University  
*Liver Transplantation for HCC*

**Session III**  
**04:00 PM - 04:30 PM**

**Interactive session**  
Do DAAs decrease the risk of HCC ?

**Prof Patrick MARCELLIN, Prof Gamal ESMAT, Prof Imam WAKED, Prof Ahmed EL RAY**

**Moderator of the session : Professor Hisham ELKHAYAT**  
Professor of Hepatogastroenterology, Theodor Bilharz research institute

**End of the Meeting**
Invited Guests & Faculty Members

Professor Philippe RUSZNIEWSKI

works currently in the Department of Gastroenterology-Pancreatology in Beaujon’s Hospital, Clichy, France. He was also responsible for the Pole of Liver, Digestive and Pancreatic Diseases located in Beaujon, Bichat and Louis-Mourier Hospitals. He is Professor of Gastroenterology at University Paris 7, Denis-Diderot, and is Dean of Paris Diderot Medicine Faculty since July 2015. His main areas of interest are digestive neuroendocrine tumours and pancreatic diseases (mainly pancreatic cancer, intraductal papillary mucinous neoplasms, acute and chronic pancreatitis). He has published 430 papers in international Journals and serves as a reviewer for leading journals in gastroenterology. He is past President of the French Society of Gastroenterology, and a member of numerous societies in the field of Gastroenterology, Pancreatology and Digestive Oncology. While he served as President of the European Neuroendocrine Tumor Society (ENETS) between 2010 and 2012, then Vice-Chairman, he is currently a member of ENETS Advisory Board.

Professor Patrick MARCELLIN

Professor of Hepatology, University of Paris. Patrick Marcellin is Head of the Viral Hepatitis Research Center in Hôpital Beaujon, Clichy. He earned his medical degree from the University of Paris and undertook postgraduate training in both internal medicine and gastroenterology-hepatology at the Assistance Publique-Hôpitaux de Paris. Professor Marcellin completed research fellowship in immunology (College of Physicians and Surgeons at Columbia University, New York City, USA). He also holds a PhD in virology (laboratory of molecular biology of professor Tiollais and professor Brechot, Institut Pasteur, Paris). Since 1984, he has been actively involved in laboratory and clinical research on viral hepatitis and liver diseases. His major focus has been on viral hepatitis therapy, and as such he has been the principal investigator on initial trials of first interferons and antivirals and on several pivotal studies of current therapies for chronic hepatitis B and C. Professor Marcellin published more than 500 original papers. As a member of the Scientific Committee of EASL, he organised the first EASL Consensus Conferences on hepatitis C and on hepatitis B. He was the Chairman of the first EASL hepatitis B guidelines. He has been the Founder and President of the French National Hepatitis Network. He is the President of APHC (Association for the Promotion of Hepatologic Care) that has organised the Annual Paris Hepatitis Conference (PHC) for the last 15 years. Patrick Marcellin is Vice-President at the Direction of Clinical Research and Innovation of Paris Hospitals (DRCI).
**Professor Philippe LÉVY**

Pr Philippe Lévy works currently as head of the Department of Pancreatology in Beaujon’s Hospital, Clichy, France. This department is totally devoted to pancreatic diseases and neuroendocrine digestive and pancreatic tumors. He is Professor of Gastroenterology at University Paris 7, Denis-Diderot, since 1999. His main areas of interest are acute and chronic pancreatitis, pancreatic adenocarcinoma and cystic pancreatic tumors. His department is labeled as national reference center for rare pancreatic disease and as European reference center for digestive neuroendocrine tumours. He has published 240 papers in international Journals and served as a reviewer for leading journals in pancreatology. He is past President of the International Association of Pancreatology, French Pancreatic Club, French CME association and received in 2018 a lifetime achievement award from European Pancreatic Club. He is a member of several societies in the field of Pancreatology.

**Professor Olivier SOUBRANE**

Olivier Soubrane is Professor of Surgery and chairs the Department of HPB Surgery and Liver Transplant in Beaujon Hospital, Clichy, France. He received his training and fellowship in surgery in Paris, France, and a post-doc fellowship in liver transplant with Prof. Carlos E. Esquivel in San Francisco, USA. He previously chaired the Department of Surgery in Cochin Hospital, and the Department of HPB Surgery in St Antoine Hospital, both in Paris, France. He has dedicated a significant period in research, leading a surgical research laboratory for ten years in Cochin Hospital and serving two terms in Surgery Committees for INSERM, the French National Agency for Research. As academic surgeon, Olivier Soubrane is an invited reviewer for several international journals including Annals of Surgery, Journal of Hepatology, Annals of Surgical Oncology, Transplantation, American Journal of Transplantation. He is member of IHPBA and ILTS. His research interest includes liver cancer, laparoscopic techniques for resection of liver tumors and live donor hepatectomy. He has reported the first laparoscopic left lateral sectionectomy in a live donor with Daniel Cherqui in 2002 and the first laparoscopic right hepatectomy in a live donor in 2013. Founding member of the International Laparoscopic Liver Society (ILLS), Olivier Soubrane was co-President with Daniel Cherqui of the first world meeting held in Paris on July 6-8, 2017.

**Professor Valerie PARADIS**

Professor in Pathology, is the chairman of Pathology department (Beaujon hospital) and leader of the INSERM team “From inflammation to cancer in digestive diseases” (INSERM 1149 Paris). Fields of interest and research include pathological and molecular aspects of liver fibrosis and tumors (benign and malignant) with a specific interest of hepatocellular carcinomas developed in patients with metabolic syndrome. Her team has developed original in situ proteomic approach (MALDI imaging) for identification of tissue biomarkers, and ex vivo culture model of human tumor slices for evaluation of therapeutic molecules. V. Paradis is involved in educational activities, chairing the specialty “Epithelium: interface structure” (Master 2 “Cellular biology-Physiology-Pathology”). She is co-coordinator of the DHU UNITY “Unmet Needs for Innovation in Hepatology and Gastroenterology” (Coordinator Pr DC Valla) and task leader (WP2: cross sectional clinical study) of the RHU QUID-NASH (coordinator Pr DC Valla) aiming to identify novative noninvasive diagnostic markers of NASH in diabetic patients.
Professor Gamal ESMAT
Professor of Hepatogastroenterology & Infectious Diseases, Past Vice President of Cairo University, Egypt
Egyptian Nile Award in Science 2016
State Merit Award in Medical Science 2010
WHO STAC Member and Past President of the International Association for Study of Liver Diseases

Professor Imam WAKED
Imam WAKED (MD, FRCP, FAASLD)
Professor of Medicine and Hepatology, previous chairman of the Hepatology department, and past Dean of the National Liver Institute (NLI) in Egypt. Dr. Waked graduated Cairo University School of Medicine, obtained a Doctorate degree from Ain Shams University, and trained in the liver unit of the University of Southern California in Los Angeles. He is a Fellow of the American Association of the Study of Liver Disease, and an honorary Fellow of the Royal College of Physicians in London.
Dr. Waked has more than 120 peer-reviewed publications in international and local journals, and is a member of the advisory board of The Lancet Gastroenterology and Hepatology. He supervised more than 60 Masters and 40 Doctorate theses in hepatology and medicine. He is a member of the Egyptian National Committee for Control of Viral Hepatitis, which oversees the National hepatitis C treatment and screening program.

Professor Mostafa EL SHAZLI
Mostafa El Shazli is the professor and chairman of general surgery department at Kasr Al Aini faculty of medicine, Cairo university. He is the founder and head of hepatopancreatobiliary unit. He is one of the founders and managing director of liver transplantation program in Kasr Al Aini faculty of medicine hospitals. He is one of the Founders and moderator of the Egyptian Hepato-pancreato-biliary fellowship (MOH). He is a Member of the supreme committee of organ transplantation in Egypt. He received his MBBCH from same university in 1982 after which he persuaded his postgraduate education (Msc, MD 1991) and training in general surgery at the same institution. This is in addition to his abroad training in US and UK in the fields of laparoscopic surgery, HPB, and liver transplantation. Throughout his career he developed a robust practice and research in advanced laparoscopic and bariatric surgeries in addition to liver transplantation and HPB surgeries. This is enabled him to convey his experience to other surgeons in different parts in Egypt and region. Prof Mostafa is one of the founders and elected member of different medical associations (Egyptian society of laparoscopic surgeons, HPB Group of the Egyptian Society of Surgeons, Egyptian organ transplantation society, Hepato-Cellular Carcinoma society of Kasr AlAini, Egyptian medical association for study of obesity), this in addition to his membership in other local and international societies.
Professor Hisham ELKHAYAT

Dr Hisham ELKHAYAT is a professor of Hepatogastroenterology, Theodor Bilharz Research Institute. He graduated and had his PH.D from Cairo university. He got his training in GI and Hepatology in BIH, Harvard Medical School and work as research and clinical fellow. He was the previous head of GI and Hepatology department, Theodor Bilharz research institute. He is appointed as vice president of the Egyptian Society of Hepatology, Gastroenterology and Infectious disease and Vice President of Egyptian Group of Study of Update of Hepatology and Gastroenterology.

- He is also the Secretary of the Egyptian Society of Stem Cell Therapy and a fellow of ACG and a member of AASLD, EASL. He is an International member ASGE AND ESGE and a member of New York Academy of Science. He is a reviewer of Gastrointestinal Endoscopy Journal and Liver International Journal. He has 58 peer review international publication and he supervise and discuss more than 300 M.D and M.Sc thesis. Dr ElKhayat is participating since 1992 in training post MD physician in the field of therapeutic endoscopy, hepatology and gastroenterology in the middle east region. He also participating of increasing awareness towards liver disease and hepatitis C, B among Egyptian and arabic countries at TV and media.

Professor Maged ELGHANNAM

Professor of Hepatogastroenterology and Head of Endoscopy unit, Theodor Bilharz Research Institute. Fellow of Hepatogastroenterology department, University of California-San Diago. Visiting international fellow of many international centers as Mayo Clinic, Mount Sinai Medical Center. International Member of many societies. Reviewer of many international journals. He has many International publications.

Dr Khaled RAGAB

- MD from Cairo University in hepatology, gastroenterology and Endemic diseases. 2017
- Advanced endoscopy (EUS –ERCP) short term training program Warsaw Poland. 2016
- Advanced endoscopy (EUS-ERCP) fellowship in Bezmialem Vakif University, Istanbul, Turkey. 2015
- Co-director of EUS training program at endoscopy unit of Theodor Bilharz Research Institute. 2017 till now
- Researcher of hepatology, gastroenterology and endoscopy, Theodor Bilharz Research Institute.
Coordinators of Bilharz - Beaujon Agreement

Prof Philippe Ruszniewski - Prof Ahmed El Ray
Prof Nevine Fam

Thanks to Professor Philippe Ruszniewski

The Dean of the faculty of Medicine Paris Diderot University. Professor Ruszniewski is the godfather of the Beaujon – Bilharz agreement. He promises to continuously support this fruitful cooperation.

Thanks to the Organizing Committee

Prof Nevine Fam - Prof Maged El Ghannam
Prof Alaa Awad Taha - Prof Hisham ELkhayat
Prof Manal Saad Diab - Prof Inas ELDafrawy

Thanks to all my professors and colleagues members of the Hepatogastroenterology department, TBRI
